[Forgot Password?](#) [Login](#)

Once you have entered your username and temporary password, you will see a prompt that says “This is the first login for your username, and the initial password you have entered must now be reset. An email has been sent to you with password reset instructions. Please follow those instructions to reset your password and sign into the Patient Portal.”

Check your email and click on the new link to reset your password.

Create a password that follows the guidelines and hit “Reset.” Make sure you save your new password in a safe place!
